

CHRISTOPHER WRAY

Full Stack Engineer & Web Developer

Tepic, Nay.

chris@solmediaco.com

509 412 4220

After my wife and I got married in 2017, we ended up being sent back to Mexico because of my wife's tourist visa for the United States. We needed to wait in Mexico to get her Green Card. That is when I built my small business, Soltech, and started doing web design and development for companies in the United States and Mexico.

Over the past several years, I have learned so much here in Mexico and found out that I am super passionate about web design and development, software, and coding. I love to code, design websites in Webflow, and love helping solve problems.

Willing to relocate to: Tri-Cities, WA - -

Authorized to work in the US for any employer

WORK EXPERIENCE

Full Stack Engineer/ Web Developer

Soltech LLC - Tepic, Nay.

October 2017 to Present

I started Soltech LLC to help small businesses market their brands online with better websites.

- Design and develop websites in Webflow to help clients easily manage content and for quickly updating designs.
- Developing applications in Laravel for security, architecture, and up to date PHP programming.
- Frontend interactions and website development with VueJs for client-side interactivity and state management.
- Provisioning servers and zero-downtime deployments on Digital Ocean, Heroku, Netlify, and other providers.
- Manage several websites with different Content Management Systems including WordPress, Webflow, Ecwid, and Shopify.
- Provide tech support for companies regarding DNS settings, email, Office 365 administration, website, and software architecture questions.

Team Lead

Garden Gate Nursery LLC - Pasco, WA

April 2011 to October 2017

- Responsible for running the planting and production team. Sped up processes greatly by streamlining day to day tasks and scheduling.
- Handled day-to-day operations and made sure tasks were completed in a timely manner while helping team members as

needed.

- Worked with nursery customer relationships and happiness ensuring customers were completely satisfied with the plants and service provided.
- Managed marketing, inventory management, pruning, irrigation, and order fulfillment.
- Set up safety procedures and Safety Data Sheets (SDS) for chemicals used. This included safety meetings, a safety procedure booklet, and notifying employees when chemicals were applied.
